

# 2022 RESIDENTIAL REBATES

## NEW HOME CONSTRUCTION

**All Star Home** \$500/home

**Requirements:**

- Energy-Efficient Home Construction: High performance insulation and windows.
- High Efficiency Heating and Cooling: Requires geothermal, cold climate air-source heat pump or ENERGY STAR® air-source heat pump.
- Efficient Electric Water Heating: Requires the installation of a heat pump water heater or geothermal assisted electric water heater.
- Electric ENERGY STAR appliances for clothes washer, clothes dryer, dishwasher and refrigerator.

**Premier Electric Home** \$200/home

**Requirements:**

- Standard air-source heat pump or better
- Electric resistance water heater or better
- Building shell checklist

## CREATE A HEALTHY HOME

**Keep it Safe**

Properly label and store poisons out of the reach of children. Secure loose rugs and keep children's play areas free from hard or sharp surfaces. Install smoke and carbon monoxide detectors and keep fire extinguishers on hand.

**Keep it Well-ventilated**

Ventilate bathrooms and kitchens; consider using whole house ventilation to supply fresh air and reduce the concentration of contaminants in the home.

**Keep it Contaminant-free**

Reduce lead-related hazards in pre-1978 homes by fixing deteriorated paint, and keeping floors and window areas clean using a wet-cleaning approach. Test your home for radon, a naturally occurring dangerous gas that enters homes through soil, crawlspaces, and foundation cracks. Install a radon removal system if levels above the EPA action-level are detected.

**Thermally Controlled**

Houses that do not maintain adequate temperatures increase the risk for it inhabitants to be exposed to extreme cold or heat.

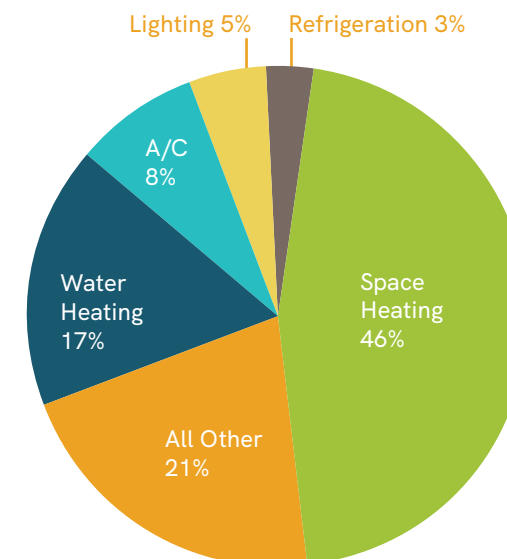

## APPLIANCE RECYCLING

Call our toll-free Pull the Plug hotline at (855) 838-7817 to request collection and recycling of your old, working refrigerator, freezer or window air conditioner; up to three operable units per address. Pick up and recycling is done by the cooperative's contractor.

Refrigerator	\$35/unit
Freezer	\$25/unit
Window Air Conditioner	\$25/unit

### Single Family Home Energy Consumption

# REBATES

## Why Electrify?

Heating is the largest energy use for homes in Iowa and provides the biggest opportunities to save. When properly installed, an ASHP can deliver one and a half to three times more heat energy to a home than the electrical energy it consumes (Source: U.S. Department of Energy). As a result, some of these systems can provide heat at a higher efficiency and lower cost than electric resistance heating, oil, or propane heating systems—and in some cases, for a lower cost than gas heating as well.

## WATER HEATERS

<b>Heat Pump Water Heater</b> ENERGY STAR® Integrated Unit	\$650/unit
<b>High Efficiency Electric Water Heaters</b> Electric Resistance Unit (not less than 40 gal. tank - min. EF ≥ 0.90)	\$75/unit
Geothermal Assisted Storage Unit (not less than 40 gal. tank - min. EF ≥ 0.90)	\$150/unit
<b>Beneficial Electrification(BE) Incentive</b> Go Electric Bonus <i>When a resistance or HPWH unit is replacing a natural gas or LP unit, or for new accounts.</i>	\$100

## OUTDOOR LIGHTING

All LED lighting fixtures must be ENERGY STAR or DesignLights Consortium™ qualified.	
Outdoor lighting must be on dusk-to-dawn with no manual switches or motion sensors (no outdoor floods).	
20-34W	\$10/fixture
35-49W	\$20/fixture
50-74W	\$40/fixture
75-124W	\$50/fixture
≥ 125W	\$60/fixture
<i>Lighting fixture rebates cannot exceed 50% of costs. Household limit of \$600 annually.</i>	

## HEATING & COOLING

<b>Heat Plus Rate</b> Per home or apartment.  Contact Guthrie County REC for more information on the Heat Plus Rate program.	
<b>Groundsource Heat Pump</b> Closed Loop System	\$250/unit & \$400/ton
Open Loop System <i>No “pump &amp; dump” systems</i>	\$250/unit & \$300/ton
Hybrid System with Gas Backup	Additional \$100/ton
Unit Replacement	\$150/unit & \$150/ton
<b>Air-Source Heat Pump, Including Minisplits</b> Cold Climate Heat Pump	\$100/unit & \$400/ton
Standard Air-Source Heat Pump	\$100/unit & \$200/ton
Hybrid Air-Source Heat Pump Bonus	\$100/ton
ENERGY STAR Heat Pump <i>Min. SEER 15.0, HSPF 8.2, EER 12.5 - Split system</i> <i>Min. SEER 15.0, HSPF 8.2, EER 12 - Single package</i>	\$350/unit & \$200/ton

<b>ENERGY STAR Central Air Conditioning</b> ENERGY STAR qualified <i>Min. SEER 15.0 &amp; EER 12.5</i>  <i>Limit two air conditioner rebates per residence.</i>	\$100/unit
---	------------

<b>Indoor Air Quality</b> Energy/Heat Recovery Ventilator (ERV/HRV)	\$250/unit
<i>Equipment must serve the entire conditioned space of the home. Limit of two HRVs per home.</i>	

## ELECTRIC VEHICLE LEVEL II CHARGERS

The cooperative will rebate 50% of the installed cost, up to \$500, for Level II chargers requiring a 240/208 volt input supply. The primary charging location of the vehicle must be at the home address of the distribution cooperative member. Wiring rebates may also be available to offset cost of Level II charger installation. Contact Guthrie County REC to learn more.
